Re: Second Written Request for Annual Reports for the Years 1992 thru 1995

Dear Mr. Whited:

As of this date, we have not received your annual report for the LC & KCL Claims, file number S/021/013 and the Mill, file number S/021/014 mine, located in Iron County, Utah. An attempt to contact you via phone was made in March and a message was left. No response has been received to the phone call. The last report we received for the LC & KCL Claims was 1991. No reports have been received for the mill since you filed your Notice in 1992. Please include all years in your filing.

The Utah Mined Land Reclamation Act, Title 40-8-15, subsection (2) and Rule R647-3-116.1 of its interpretive rules, require a mine operator to file an annual report with this Division by January 31st of each year. This report is required regardless of mine activity, unless the Division grants a written waiver from the annual filing requirement, or the operator receives a formal release from continued reclamation obligations from the Division. Your failure to file this report, may constitute a violation of the Mined Land Reclamation Act, which could result in the issuance of a Notice of Noncompliance and/or a formal Notice of Agency Action.

We assume that your failure to return the completed annual report form was an oversight. Accordingly, we are once again requesting that you submit the required report to this office. Please return the enclosed annual report form no later than April 15, 1996. Feel free to make copies of the blank report as needed. Please contact me if you have questions or concerns in submitting the report. Thank you for your cooperation and prompt attention to this matter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
